

Academic requirements for entering IB DP (internal students in pre-IB classes)

According to Admissions Policy, students must achieve at least a “2” grade in a particular subject to pursue the subject in the related DP subject group at a higher level. If students are unable to apply for 3 courses at a higher level, they cannot fulfil the general requirements of IB DP and cannot get the full Diploma. As a result, they will receive a non-examination student status¹.

This document brings essential information about the list of subjects in the 2nd pre-IB class and the linkage to particular IB DP subjects.

Requirements for entering IB DP subjects at a higher level (HL):

If a student wants to enter the subject **Czech A literature** (HL), they need to achieve at least a “2” grade in the following subjects in the 2nd semester of the 2nd pre-IB class:

Česká literatura

Světová literatura

There are no specific grade requirements for the subject **English B** (HL).²

If a student wants to enter the subject **Geography** (HL), they need to achieve at least a “2” grade in the following subjects in the 2nd semester of the 2nd pre-IB class:

Regiony v souvislostech

Geografie a geologie

If a student wants to enter the subject **History** (HL), they need to achieve at least a “2” grade in the following subjects in the 2nd semester of the 2nd pre-IB class:

Světové dějiny

České dějiny

If a student wants to enter the subject **Biology** (HL), they need to achieve at least a “2” grade in the following subjects in the 2nd semester of the 2nd pre-IB class:

Biologie organismů

Organismy a prostředí

Biochemie

If a student wants to enter the subject **Chemistry** (HL), they need to achieve at least a “2” grade in the following subjects in the 2nd semester of the 2nd pre-IB class:

Chemie sloučenin

Biochemie

If a student wants to enter the subject **Physics** (HL), they need to achieve at least a “2” grade in the following subjects in the 2nd semester of the 2nd pre-IB class:

Fyzika

Stavba hmoty

If a student wants to enter the subject **Mathematics – Analysis and Approaches** (HL), they need to achieve at least a “2” grade in the following subjects in the 2nd semester of the 2nd pre-IB class:

Matematika

If a student wants to enter the subject **Mathematics – Applications and Interpretation (HL)**, they need to achieve at least a “2” grade in the following subjects in the 2nd semester of the 2nd pre-IB class:
Matematika

Schválil: RNDr. Pavel Vlach, Ph.D., ředitel školy

V Rokycanech dne 03. 10. 2025

¹In case of not meeting the academic requirements mentioned above, candidates can take **Individual Subject Admission Tests** (ISAT). For more details see Admissions Policy or contact the IB coordinator Jan Zítek (zitek@gasos.cz).

²All students must demonstrate achievement of **B2 level in English**, either by passing the **ELET exam in June of the second year** or by providing a certificate of a language exam at the same or higher level. If a student does not demonstrate the required language level, they are not allowed to continue their studies. In subject block 2 (Language Acquisition), the subject **English B** is offered only at higher level; therefore, students do not take the ISAT exam in English, and the requirement to achieve a grade of 1 or 2 does not apply.
